Spanish – Native

English – Fluent (C1 – Advanced spoken and written)

Professional Summary

Full Stack JavaScript Developer skilled in Next.js, TypeScript, Node.js, Prisma, and PostgreSQL, focused on building scalable web applications that create real business value. I blend technical expertise with a strategic mindset to craft solutions that enhance efficiency, user experience, and growth—driven by innovation and a commitment to solving real business needs.

Core Technical Skills

Frontend

HTML5, CSS3, JavaScript (ES6+), TypeScript, React basics, Next.js, Tailwind CSS, responsive design, accessibility (a11y), UI/UX best practices.

Backend & Databases

Node.js, Prisma ORM, PostgreSQL (Neon), RESTful APIs, authentication (NextAuth), server actions, deployment optimization.

Tools & Deployment

Git, GitHub, WSL, Vercel, GitHub Pages, CDN setup, SEO & Open Graph configuration.

Selected Projects

- **Tolaris Crown** – Luxury hotel showcase built with Next.js, TypeScript, Tailwind CSS, Prisma, and PostgreSQL. Full-stack architecture with dynamic routing, SEO, and elegant UI.
  🔗 tolaris-crown.vercel.app
- **Life Dashboard** – Modular productivity web app using HTML, CSS, and Vanilla JS. Includes task, budget, and habit tools with persistent data.
  🔗 richard-morales.github.io/life-dashboard
- **Frontera Desk** – Multi-tenant business management SaaS (in development) built with Next.js, Prisma, PostgreSQL, and NextAuth.
  🔗 Live Demo: Coming soon

Professional Experience

Accounts Receivable Specialist — Hansei Solutions

Remote · Jan 2024 – Present
Manage complex revenue cycles for U.S. behavioral health providers. Analyze payer data, identify denial trends, and implement process improvements that recover lost revenue and strengthen operational efficiency.

Implementation Analyst / Medical Billing Specialist — SmrtDo

Remote · Apr 2021 – Jan 2024
Led end-to-end billing operations, ensuring accuracy, compliance, and timely reimbursements. Developed analytical dashboards and streamlined workflows that enhanced transparency and decision-making.
